

Computer Component Detective Guide Name _____

Using the Wikipedia Links on our course guide and their photos, match the computer components in bags with their official name and use. Then compare their features by looking at the two side-by-side:

Component Name	Dell Part Number	IBM Part Number	What does it do? Summarize from wikipedia or your peers.	How do the two differ? Count # of ports, compare specifications, etc.
Mother Board				
Power Supply				
Central Processing Unit				
Random Access Memory (RAM)				

Hard Drive				
Expansion Cards				
Other peripheral storage devices				
Peripheral communication device
